INTRODUCTION

Launched in August 2021, Buff Doge Coin is the Buff version of Dogecoin. It was born because of the popular meme of Dogecoin. Buff Doge Coin is decentralized and anyone can buy, sell and transfer to others party easily. Its missions are to introduce crypto to common people, to help fund animal shelters and to care for the environment as Buff Doge Coin has cheaper gas fee and has a faster block speeds since it is built on Binance Smart Chain.

One of our goals is to bring Buff Doge Coin to the Moon and Mars. Compared with other tokens, Buff Doge Coin has some unique characteristics. One of them is hyper deflationary, where each burn will double in its quantity than the previous burn. At one time in the future, Buff Doge Coin burn 100% of its remaining supply. In the end, the remaining supply becomes zero. We believe Buff Doge Coin and Dogecoin complement each other. As time proceeds, Dogecoin can insanely push Buff Doge coin into its popularity, and vice versa, where Buff Doge Coin can further increase the popularity of Doge coin. Buff Doge Coin have a lot of memes and later it will be one of the kings of all memes. When you buy and hold Buff Doge Coin, the holders gain more coins,

automatically added to the holders' wallets. Our project also has a good security. Although Buff Doge Coin is a meme character, but the project behind seriously creates a better earth. Some percentage of the developer's profit will be donated to the animal shelter and environmental issue, such as forest reconstruction to prevent global warming.

01 ABSTRACT

Buff Doge Coin

Buff Doge Coin was born in august 2021, Buff Doge Coin was born due to the popularity of the Dogecoin meme with the goal of being a decentralized meme project. Buff Doge Coin is a fun meme with a serious mission of rescuing animal shelter and environment, such as forest conservation. It is due to the Interconnection of Everything. When we destroy nature, it will also destroy human and animals as "We are One". If we destroy one part, the other part will also get affected. We believe that the most important mission in this lifetime is to live in harmony with all sorts of life - human beings, animals and nature. Therefore, we support animal shelter and environmental issue. Sharing is the key, Not Self-Ownning. Whatever you destroy outside yourself, you destroy within yourself. Thus, some of the developer's profit will be donated to rescue animal shelter and environment.

Buff Doge Coin Swap

We offer a live decentralized swap directly on our website right after launching.

Buff Doge Coin NFT

One of our largest project in the future is the NFT Market Place. Everyone can participate in buying or auctioning NFT.

Buff Doge Coin Merchandise

There will be a merchandise shop that yields profit margin to be used for helping animal shelter and environmental concerns.

02 VALUES

Trust is the most important thing in Cryptocurrency. Without trust, we cannot thrive and have no community. Our community will become very large because of the trust factor.

Decentralized Buff Doge Coin makes all token trades visible and checkable. There is nothing to hide.

Our community comes from all over the world, different races and cultures under the slogan “We are united, we are one”.

Buff Doge Coin is designed for a long term. We proceed in terms of project development and technology. Thus, the fundamental is also getting stronger.

03

BUFF DOGE COIN

Buff Doge Coin is a token running on Binance Smart Chain (BSC). Binance Smart Chain (BSC) is best described as a blockchain that runs in parallel to the Binance Chain, as a means of utilizing solidity-based smart contracts with much greater speed and efficiency than the other blockchains. BSC uses a token protocol developed by the Binance Team called BEP-20 and known for 5- second block speeds, much faster than Dogecoin with 1- minute block speeds.

Doge block time: 1 minute:

Bep 20/BSC = 5 Seconds.

<https://trustwallet.com/blog/binance-smart-chain-in-numbers>

Advantage of BSC:

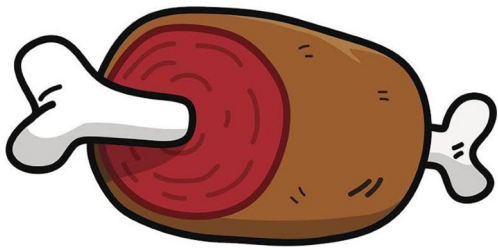

- Proper Blockchain provides both the security to all users and the development.
- BSC is using “Proof of Stake” (PoS), a newer version than proof of work. In Proof of Stake, the individual that creates the next block is based on how many stakes they have.
- Built on 21 validators who validate the transaction.
- Decentralized - everyone can buy, hold, sell and transfer anytime they want.

04

FITNESS ECOSYSTEM

5%

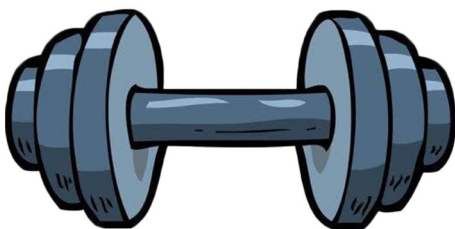

Of Each Transaction
ReDistributed to Holders

5% fee = redistributed to all existing holders

5%

Of Each Transaction Added to
Liquidity

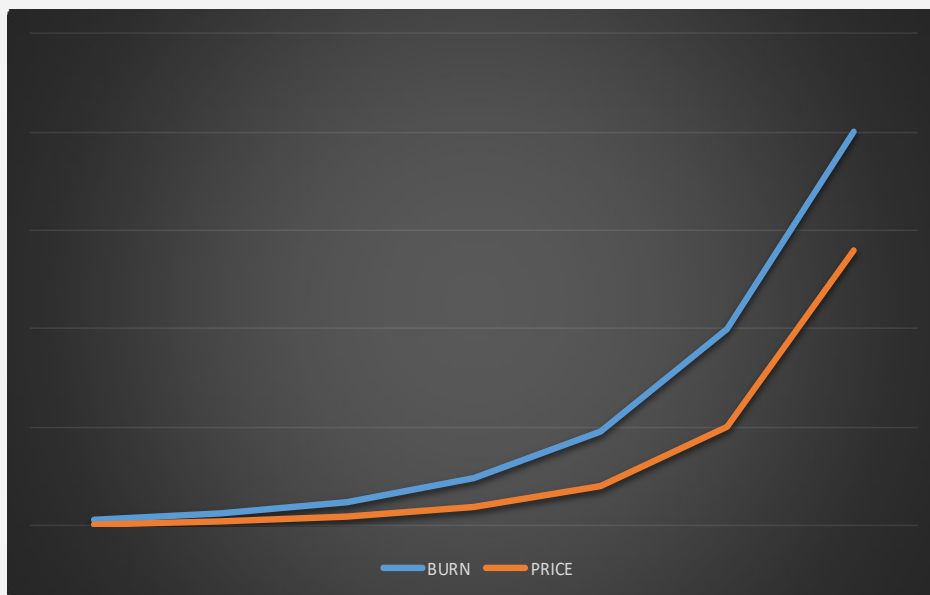

Liquidity Pool is locked and 5% fee is split 50/50 half of which is sold by the contract into BNB, while the other half of the Buff Doge Coin are automatically paired with the previously mentioned BNB and added as a liquidity pair on Pancake Swap.

05 BURN FAT PROTOCOL

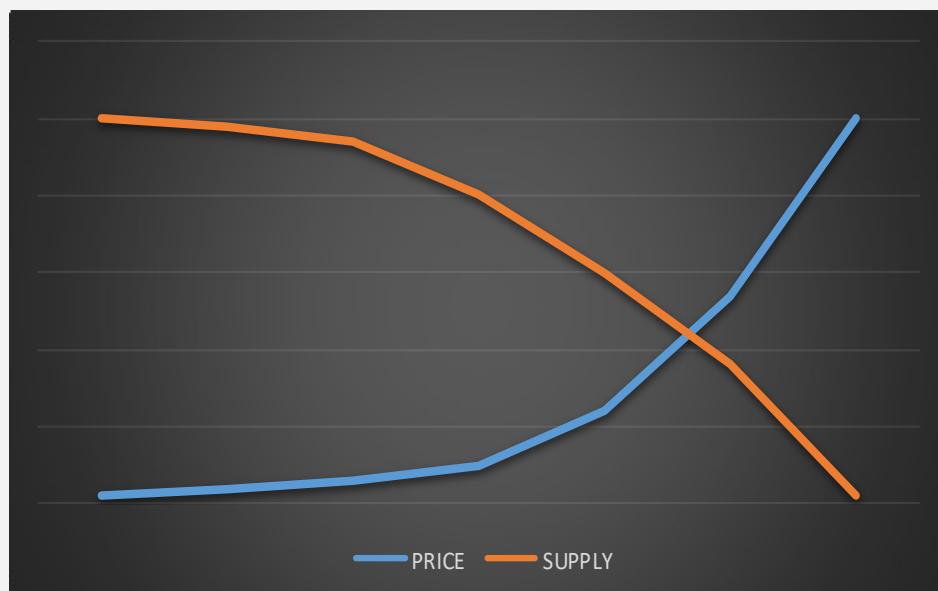

MANUAL BURN

Buff Doge Coin is an extremely hyper deflationary token. We have a very unique burn protocol where **each burn will double in its quantity to the previous burn.**

#	BUFF DOGE COIN BURN	
1st	1.000.000	 DONE
2nd	2.000.000	 DONE
3rd	4.000.000	 DONE
4th	8.000.000	 DONE
5th	16.000.000	 DONE
6th	32.000.000	 DONE
7th	64.000.000	 DONE
8th	128.000.000	 DONE
9th	256.000.000	 DONE
10th	512.000.000	
11th	1.024.000.000	
12th - Till The End	CONTINUING DOUBLING ITS BURN, WE WILL BURN TRILIONS OF BUFF DOGE COIN UNTIL ALL THE REMAINING SUPPLY IS BURNED.	

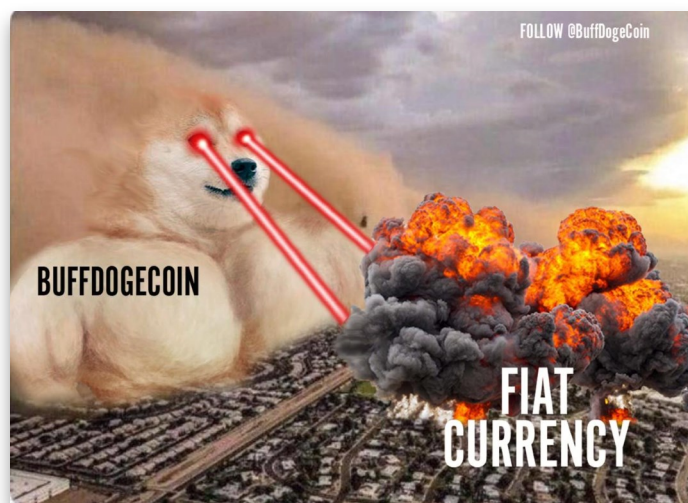

Each burning token will double the amount of the previous burn so that the token price increases.

The less the total token supply is, the higher the token price will be.
